October 2, 2012

With hurricanes and debates filling the dance cards of the 1%, it's nice to know that there are still local heroes. Richard B. Comiter is living the American dream while also making the law work for him – now that's a trait that would make our forefathers proud. It seems Uncle Sam has been very kind to this bright and well-deserving Palm Beach Gardens attorney. Comiter has amplified his already impressive résumé by being named a "Top 100 Attorney in Florida" – and that's by *The Wall Street Journal's* standards.

Attorneys can either be your friend or foe. Having the right attorney can make all the difference both in a case and in our lives. One needs to look no further than the Hollywood spectacle that was the O.J. Simpson trial to appreciate the value of compiling brilliant minds in the study and art of law. Now, the question is: do you want them to be sitting with you or across from you in the courthouse?

As a senior partner at [Comiter, Singer, Baseman & Braun, LLP](http://www.comitersinger.com), his knowledge and professionalism have earned him the respect of his colleagues. With the firm's legal talents covering many areas of law, like federal income and estate tax planning, limited company state law, succession and wealth transfer planning, Comiter has certainly proved he mastered his profession, earning his honors and B.A., Juris Doctorate and Masters of Tax Law. Serving on the Asset Protection and Business Planning Committees, you have to ask yourself, do you want to sit across from this attorney or at the same table?

Comiter, Singer, Baseman & Braun, LLP is headquartered in Palm Beach Gardens. For more information please visit www.comitersinger.com or call (561) 626-2101.
